PUFF N PULL WAS A CROWD PLEASER, AND THE KIDS HAD A BLAST.

What a summer at Indian Valley Campground!

What a summer! Awesome weather brought campers, paddlers, and tubers, and almost every weekend was so busy, many were filled to capacity. We had visitors from as far away as Vermont who camped with us on their bicycle ride across the country, and the Thornapple River Expedition stayed with us while paddling the 42 mile length of the river. Each weekend was filled with activities like the Puff n Pull pedal tractor pull, pie eating contest, wagon rides, and much more.

Let us not forget fishing. Small mouth Bass, Bluegills, and Northern Pike were among the fish caught in the river and area lakes.

Thanks for visiting us, and we hope you'll come enjoy the fall colors.

The beauty of Barry County

Did you know Barry county has 300 lakes and rivers? In addition, being located in close proximity to Grand Rapids, Lansing, Kalamazoo, Holland, and Grand Haven, Muskegon areas, one can plan a spectacular fall color tour close to home.

View the beauty of fall from one of our canoes, kayaks, or rafts. How about a bicycle ride on the Paul Henry trail?

It's a tunnel of trees that borders the river, and is a easy ride for young and old alike.

Do you just prefer to jump in the car and go touring? We have mapped out tours in varying lengths and the Yankee Springs recreation area is close by.

Other area attractions include historic Charlton Park, Bowens Mill apple cider mill, or enjoy Boulder Ridge wild animal sanctuary, just minutes from camp.

Maybe you would like a round of golf, or see the colors while horse back riding, we have so many options for you.

Come join us!
